

Belkacem Mehdi

Full Stack & AI Engineer | Software Architecture Manager

xlutirax@gmail.com | 0541789699 | 01 rue abdelkrim ouahli 16000 Algérie | Algeria

PROFILE

Master's Degree graduate specializing in the architecture, development, and deployment of intelligent systems. Combining **full-stack engineering** with **AI integration**, I design **scalable web applications** and **manage their entire technical lifecycle**, ensuring robust **containerized architectures** and seamless **cloud deployments**.

TRAINING

Software Architecture Manager (Master's Degree)

CESI Exia (Computer Engineering School)

Advanced engineering training focused on designing complex software architectures, IT system urbanization, and technical project management.

Developed strong expertise in scalable application deployment, software quality assurance, and aligning technical choices with business strategies.

07/2026

Berraki

Level B2 (Professional English)

TOEIC - Test of English for International Communication

02/2025

PROFESSIONAL EXPERIENCE

HR Web Solution | Algérie Télécom

Built a web application to streamline the workflow and relationship management between supervisors and trainees.

03/2023 – 06/2023

Alger

Trainee Monitoring Tool | Ooredoo

Designed a web-based dashboard for supervisors to track intern progress in real-time and optimize task organization.

01/2024 – 04/2024

Alger

Knowledge Base & Project Management Platform | Ooredoo

- Created a centralized platform for team collaboration and project tracking.
- Configured and deployed a secure environment using **Docker**, **Nginx**, and **Linux VMs**.

09/2024 – 02/2025

Alger

Intelligent Banking Assistant — RAG Platform | Bank CNEP

- Designed and developed an **AI-powered document assistant** using Retrieval-Augmented Generation (RAG).
- Built a semantic search pipeline with **vector embeddings**, re-ranking models, and a **local LLM** for context-aware regulatory answers.
- Implemented query expansion, intent routing, and **GPU-accelerated inference**.
- Deployed entirely **on-premise** to guarantee full data sovereignty.

02/2026 – 07/2026

Alger

SKILLS

Databases

- PostgreSQL, phpMyAdmin,
- MangoDb.

Languages & Frameworks

- Nextjs, React, Nodejs, Python, Javascript, C/Arduino,HTML5,CSS3

Devops & Security

- Docker, Nginx, Virtualisation(VMs), Git/Github, Linux (Ubuntu / Debian)

Project management

- UML Diagrams, WBS, SWOT, AMDEC, Technical documentation

Soft Skills

- Autonomy,
- Problem-solving,
- Cross-functional communication,
- Strategic thinking,
- Technical leadership,
- Change Management

AREAS OF INTEREST

Innovation & Prototyping — Passionate about transforming daily concepts into functional applications (e.g., culinary management, outdoor/hiking tracking). | **Game Development** — Building experiences with Unreal Engine. | **Martial Arts** — Kick-boxing (focus on discipline and perseverance). | **Culture** — Deep interest in Japanese culture.
